MP-10 PRO Operating System ver. 1.03

MP-10 PRO Operating System version 1.03 improves some functions and fixes some bugs. This upgrade is recommended to all users.

Improvements	
Library	Overall system speed improvement when handling a large number of songs and long playlists.
Library > Import	New Import Folder dialog box.
Library > Tools > Library View	The Play Count option has been removed.
Players	Improved compatibility with new CDG and MP3+Lyrics file types.
Bug fixes	
MP3	Solved a compatiblity issue with MP3 files encoded at 22kHz.
MP3+Lyrics	Solved an issue with importing some MP3 files with Lyrics. The Lyrics could be ignored during the Import procedure, while it was still visible on the files directly read from an external USB device.
SMF	Solved an issue with SMFs containing Tempo change values below 25 and over 250 BPMs.
USB	Solved some compatibily issues with USB CD-ROM drives and U3 Smart Drives.

MP-10 PRO Operating System ver. 1.02
